AUTHORISED 3M DISTRIBUTOR · PUNE · MUMBAI · GOA

About Ekdant Enterprises

Ekdant Enterprises has been in business since 2001 and an authorised 3M India distributor since 2008, covering both the CBT and IATD divisions. We operate from Pune with offices in Mumbai and Goa, and have served over 900 customers across offices, hotels, hospitals, manufacturing plants, fleets and public infrastructure.

We supply genuine 3M material with traceable supply from 3M India — and we install it ourselves. Installation quality is where most product failures actually originate, so our own trained crews carry out film, matting and anti-skid application rather than subcontracted labour.

Why buy from an authorised distributor

Genuine, traceable	Every roll and cartridge traceable to 3M India — no repackaged or grey-market stock.
Warranty intact	Manufacturer warranty holds because the chain of custody is documented.
Right specification	We survey substrate, traffic load, orientation and exposure before recommending.
Own trained crews	Installation by 3M-trained teams, not subcontracted labour.
Technical backup	Direct access to 3M India technical resources for unusual applications.
After-sales	Named account manager, same-day WhatsApp response, annual inspection for rate-contract customers.

Contents

1.	3M™ Nomad™ Entrance Matting	7 products

5.	3M™ Conspicuity Tapes	1 product
6.	Traffic Safety Products	3 products
7.	3M™ Adhesives & Tapes	3 products
8.	Food Service & Maintenance	2 products

1. 3M™ Nomad™ Entrance Matting

80% of dirt in a building walks in through the door. Nomad matting stops it there — protecting floors, cutting cleaning cost, and preventing wet-floor slips.

WHERE IT IS USED Lobbies · Receptions · Hotel entrances · Malls · Hospitals · Corporate towers · Plant entry points

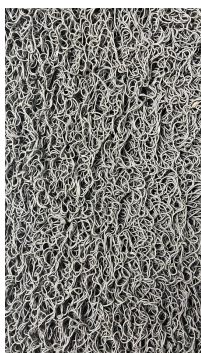

Nomad™ Aqua Series

Textile matting that absorbs moisture and fine dust — for lobbies, receptions and interior entrances (Aqua 6500 / 8850).

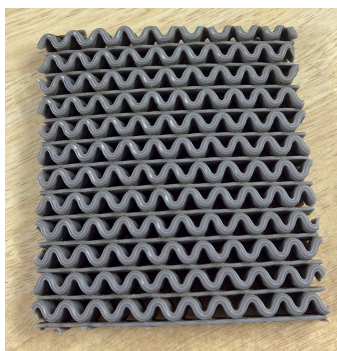

Nomad™ Aqua Carpet Mat (4900 / 6900 / 8900)

Carpet-pile Aqua mats with moulded rubber edging — ready-to-lay moisture and dust absorption for interior entrances and reception zones.

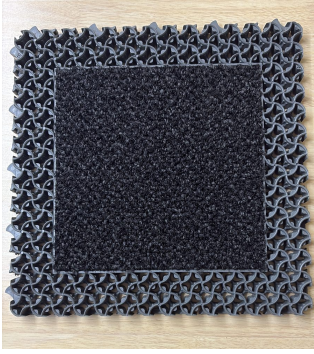

Nomad™ Terra Series

Heavy-duty scraper matting for outdoor and covered entrances — removes coarse dirt and mud before it enters (Terra 6050 / 7150).

Nomad™ Entrap Heavy Duty Mat (9100)

Open Z-web vinyl construction that traps coarse dirt, mud and water below foot level — for the heaviest-traffic outdoor entrances. Hose-clean and long life.

Nomad™ Modular Mat (8900)

Interlocking modular matting tiles — configure to any entrance size or shape, and replace individual worn sections instead of the whole mat.

Nomad™ Optima Mat

Premium aluminium-profile recessed matting with carpet inserts — the architectural entrance solution for high-end lobbies, malls and corporate towers.

Custom Logo & Branded Mats

Entrance mats custom-made with your logo and brand colours — dirt-stop performance plus a branded first impression for lobbies, hotels and premium towers.

2. 3M™ Safety-Walk™ Anti-Skid Tapes

Slips and falls are among the most common workplace accidents — and the cheapest to prevent.

WHERE IT IS USED Staircases · Ramps · Wet process areas · Pool decks · Plant walkways · Vehicle steps · Escape routes

Safety-Walk™ General Purpose (600 Series)

Mineral-coated slip-resistant tape for stairs, ramps and walkways — indoor and outdoor. Available plain in black, yellow and grey, and as 613 black/yellow hazard striping for step edges, forklift routes and marked-off zones.

Safety-Walk™ Conformable (510 / 530)

Moulds over chequered plate, diamond plate and irregular surfaces — for plants, vehicles and machinery.

Safety-Walk™ Fine / Resilient / Clear (220 / 620)

Barefoot-friendly slip resistance for pools, changing rooms, bathrooms and wet process areas — including 620 Clear for surfaces where looks matter.

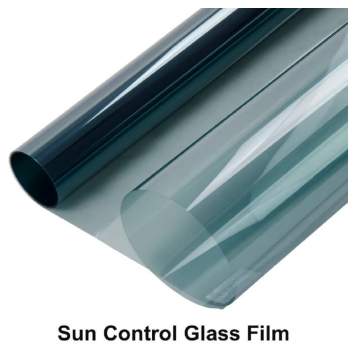

Safety-Walk™ Night-Glow (Photoluminescent)

Glow-in-the-dark anti-slip tape that charges in ambient light and stays visible in darkness or power failure — for stair edges, escape routes and low-light egress marking.

3. 3M™ Sun Control & Glass Safety Films

Cut heat, glare and air-conditioning load — and turn ordinary glass into safety glass.

WHERE IT IS USED Glazed facades · Office windows · Hotels · Hospitals · Storefronts · Homes · Security-sensitive premises

Sun Control Glass Film

Sun Control Films — Prestige / Ceramic Series

Advanced heat rejection with high clarity and low reflectivity; reduces AC load and fading of interiors.

Sun Control Films — Night Vision / Traditional

Cost-effective solar control with clear night-time views — offices, homes and storefronts. Frosted and dusted privacy films also available.

Safety & Security Films (S40 / S70 / Ultra)

From anti-shatter films to Ultra 600 blast-resistant film — holds glass together against impact, intrusion and explosion.

4. 3M™ Architectural Films

Renovate without demolition — premium finishes applied directly over existing surfaces and glass.

WHERE IT IS USED Hotel refurbishment · Office fitouts · Lift interiors · Doors & panels · Glass partitions · Training rooms

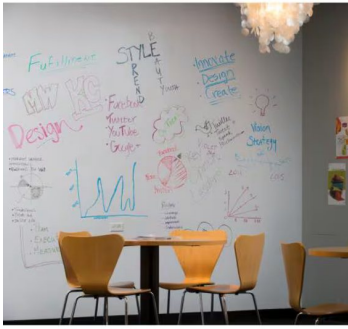

DI-NOC™ Surface Finishes

1,000+ wood, metal, stone and abstract finishes for doors, panels, lifts, columns and furniture — installed overnight.

Fasara™ Glass Finishes

Decorative films that turn plain glass into frosted, gradient or patterned partitions — privacy with light.

Whiteboard & Projection Films

Convert walls and tables into writable, erasable surfaces for offices, schools and training rooms.

5. 3M™ Conspicuity Tapes

Night-time visibility for commercial vehicles — mandatory under AIS-090 / CMVR, and life-saving on highways.

WHERE IT IS USED Trucks · Trailers · Tankers · Buses · Fleet operators · Transport contractors

Diamond Grade™ 983 Series

Premium prismatic conspicuity marking — red/white and yellow — for trucks, trailers and tankers.

6. Traffic Safety Products

3M retroreflective technology for signs and roads — specified to IRC and MoRTH standards.

WHERE IT IS USED Highways · Urban roads · Plant & campus roads · Signage contractors · Municipal authorities

Diamond Grade™ DG³ Sheeting

Highest-performance prismatic sheeting for critical road signs — maximum night-time visibility.

High Intensity Prismatic & Engineer Grade

Retroreflective sheeting grades for highway, urban and facility signage per IRC:67 specifications.

Pavement Marking & Road Safety

Marking tapes and road safety materials for contractors, industries and campus roadways.

7. 3M™ Adhesives & Tapes

Industrial bonding solutions from 3M's IATD division — engineered alternatives to screws, rivets and welds.

WHERE IT IS USED Manufacturing · Assembly lines · Signage · Panel bonding · Maintenance workshops

Double-Sided & VHB™ Tapes

High-strength bonding tapes for panels, signage, trims and assemblies — invisible, vibration-resistant joints.

Masking & Specialty Tapes

Masking, electrical, sealing and surface-protection tapes for industrial processes.

Industrial Adhesives

Structural and speciality adhesives for bonding metal, plastic, glass and composites in manufacturing.

8. Food Service & Maintenance

The Scotch-Brite™ professional range — where the Ekdant story began in 2001.

WHERE IT IS USED Commercial kitchens · Hotels · Housekeeping · Facility management · Floor-care contractors

Floor Pads & Machine Consumables

Scrubbing, buffing and polishing pads for floor-care machines — every colour grade for every task.

Scotch-Brite™ Professional

Sponge wipes, microfibre cloths, cleansing pads, griddle scrubbers and mops for commercial kitchens and housekeeping.

The Ekdant Advantage

Written workmanship warranty

12 months on film and matting installation workmanship — no bubbling, peeling, edge-lift or adhesion failure. Covers installation defects; product performance is covered by the applicable 3M product warranty.

7-day rectification promise

Any installation defect reported within 7 days of handover is rectified free of cost.

Documentation with every installation

Installation certificate with batch numbers and photographs, product datasheets and applicable test-standard references.

Free annual inspection

For annual rate-contract customers, with a maintained asset register — condition, age and replacement calendar of all installed materials.

Named account manager

Same-day WhatsApp response. Installations executed only by 3M-trained teams.

48-hour quotation commitment

Enquiries quoted within two working days.

Request a quotation or a free site survey

Send us the area, the surface and a photograph. We will recommend the right 3M product for the application and quote supply — or supply and installation — within one business day.
